

BUILDING WILL DOUBLE SCIENCE FACILITIES

Construction of the University's \$950,000 Science Building is expected to be completed by the Fall of 1959. The two-story steel, glass and granite structure will house physics, chemistry and biology laboratories as well as class rooms, offices and a large lecture hall.

Bush to Give Graduation Address

Senator Prescott Bush will deliver the commencement address at the June graduation according to an announcement by President James H. Halsey.

The Connecticut senator will make the address before a prospective graduating class of 298 seniors. The commencement is scheduled to be held Sunday, June 8.

Because of other duties,

neither President Halsey nor Vice-Pres. Littlefield will be able to attend this year's affair. Chairman of the Board of Trustees Alfred V. Bodine will make the presentations in their behalf.

Temporarily rescheduled for June 6, a referendum of graduating seniors picked the original date of Sunday for commencement exercises.

Fund Drive Opens April 30

Area industrial, commercial and civic organizations are playing a vital role in the University campaign for a \$950,000 Science Building, Alfred V. Bodine, chairman of the Board of Trustees announces.

Active participation in the campaign by divisional chairmen and workers, as well as benefactors' interest in the University, is at a higher point than ever before, and gives assurance that the Science Building campaign will be successful, Bodine reported.

Much of the growth of the University is the result of support of an interest in the campus by the community, Bodine observed.

The Kick-Off dinner to open the Science Building Drive will take place at the Gymnasium, on April 30 at 7 p.m. A social hour will begin at 6 p.m.

All individuals interested in taking part in the campaign are invited to the Kick-Off dinner, Bodine said. Reservations may be made with Harold C. Main, general chairman of the drive, at FOrest 6-3611. No charge is to be made for the dinner.

The first item on the after dinner program, the invocation, will be delivered by Reverend Dr. Eaton V. W. Read. After Pres. James A. Halsey welcomes the guests, George A. Buckhout, president, Board of Associates, will speak on Charter Day.

The revised University Charter will be explained by Bodine.

Brig-Gen. Austin W. Betts

Earle M. Bigsbee, dean of the Junior College, will then present Charles D. Weber, assistant professor of art, who has been named Teacher of the Year by the Board of Associates.

Dr. Littlefield will tell the story behind the new Science Building. He will be followed by Brig. Gen. A. W. Betts who will deliver the keynote speech. Main will conclude with instructions to chairmen and committee workers.

Approximately \$700,000 is being sought by campaign officials with advance gifts to date totaling nearly \$70,000 as reported by Charles Kentnor Jr., advance gifts chairman.

Completion of the two-story laboratory and classroom building will permit the University to offer major work in chemistry and physics. Service courses had previously been offered in these areas.

Construction is expected to begin this fall with completion scheduled for the fall of 1959. More than 300 volunteers from civic, commercial and industrial groups have already indicated an interest in the campaign.

Campaign officials and division chairmen include: Harold C. Main, general chairman; Edward C. Bullard, co-chairman; Advance Gifts, Charles B. Kentnor Jr.; Alumni, Chris M. Parrs, Leo A. Muldoon; Builders and Contractors, Fred G. Frassinelli Jr.; Frank T. Hackett; Citizens, Raymond Hargraves, Mrs. Frank J. Quinn; Clubs and Organizations, Alfred V. Bodine; Dentists, Ira Dow Beebe, Carl E. Hedberg, Paul P. Liscio; Faculty and Staff, Helen M. Scurr, Francis E. Dolan, Marion J. Lunn; Financial, William L. Lashar, David B. Smith; Industrial, H. Burling Naramore, Herman K. Beach Jr.; Insurance and Real Estate, J. Baldwin Pearson, James E. Gale; Lawyers, Donald M. Collimore, Dwight F. Fanton, Irwin E. Friedman, Daniel F. Wheeler; National Corporations and Foundations, Herman W. Steinkraus; Physicians, Charles H. Sprague, George A. Buckhout, Harold Ribner; Public Utilities, Ronald A. Malony; Retail, Sergeant F. Eaton, Sidney Reisman; Service, John L. Schwab, John M. Berkowitz; Students, Vincent Caprio, Edward Chin; Wholesale, Maurice J. Hoffman, George Lewin.

Educators Meet Today For Confab

The annual meeting of the Connecticut Council on Higher Education will take place on campus today.

Approximately 80 top educators, including many college presidents, representatives of the state board of education, members of the House and Senate committees on education and school superintendents are expected to take part in the day-long session.

"Present and Future Community Needs for Two-year Colleges in Connecticut" will be discussed at the meeting with representatives of private colleges and universities, the state university and its branches, state teachers colleges and communities planning new colleges expressing themselves on what is being done in these areas and plans for the future.

Speakers will include — Dr. Henry W. Littlefield, vice-president, University of Bridgeport, private colleges and universities; Dr. Albert Waugh, provost, University of Connecticut, the state university and its branches; Dr. William Flaherty, deputy commissioner of education, the state teachers colleges; Dr. C. E. Nast, superintendent of schools, Westport, communities planning new colleges.

William J. Sanders, commissioner of education will prepare the background for discussion.

Election of officers of the council will also take place.

Reports of present executive committee members will include: President, Rosemary Park, president of Connecticut College for Women, executive committee; Dean W. Harrisons junior-senior college relations; Carter, Univ. of Connecticut, Dr. Arwood Northby, Univ. of Conn. school and college relations; J. Eugene Smith, president, Willimantic State Teachers college, accreditation.

New members to be welcomed to the council include Arthur E. Keating, president, Bridgeport Engineering Institute and Father Theophila, O.F.M., Superior, The Holy Apostles Seminary.

ADVANCE GIFTS

Pres. James H. Halsey has announced that advanced gifts as of Monday amounted to approximately \$100,000. These gifts included those from banks, industries, business firms and alumni. This means that \$350,000 of the \$950,000 is now available. The new development fund put \$200,000 into the new structure.

Science facilities will be doubled with the completion of the modern \$950,000 Science Building for which a fund raising campaign will get underway on April 30, announced Dr. Henry W. Littlefield.

Completion of the laboratory and classroom building, will permit the University to offer a major in chemistry and physics for the first time, as well as concentrated science offerings in one area, he said.

Biology laboratories now housed in Fones Hall will also be moved to the new Science Building.

Dr. Littlefield described the new structure as a two-story building with a full basement and approximately 42,000 square feet. He said another 15,000 sq. ft. of space in the basement will be used for future expansion.

The main entrance will be on Park Place, but the building will also extend along Hazel Street. The structure will be 80 feet in width, 240 feet in length, and 30 feet in height.

Forty-one buildings on approximately 40 acres of land make up the present campus.

Faculty members and students contributed ideas which were incorporated in the design of the new structure.

Facilities in the new Science Building will include physics, chemistry and biology laboratories, multi-purpose laboratories, preparation rooms, classrooms,

a large lecture hall equipped for scientific demonstrations, faculty offices and security storage space for acids and radioactive material.

The new facilities will make possible advanced laboratory courses, now being developed. They are: biochemistry, colloidal chemistry, theoretical chemistry, electricity and magnetism, electronics, light and optics, nuclear physics and thermodynamics.

Dr. Littlefield said the new structure has been designed with an eye toward economy of maintenance. The outside of the building will be of curtain wall construction with steel panels and limestone trim, while the window space will be extensive.

Also, being in high proportions in classrooms and corridors will be ceramic tile. Asphalt tile will be used on the floors.

Provision has been made for an elevator which will be used primarily to transport specimen tables and exhibits throughout the building.

The basement will include the heating plant, storage areas, for science materials, the custodial services and the unfinished floor space which eventually will be utilized for classrooms and laboratories.

The first floor will contain a lecture room with elevated seating for some 300 students. Two classrooms will be constructed beneath the lecture room and

(continued on page 2)

Stanley Sees Sizeable Group Action on 'UB Day'

Prof. George Stanley, director of Student Activities, declared that response to group action for UB Day participation indicated that there will be a sizeable amount of cooperation among student organizations.

Meeting with leaders of fraternities, sororities and dormitories, Professor Stanley said that the members of these organizations will be briefed by their representatives and a decision will be made concerning their cooperation. The number of organizations that met with the director of Student Activities and Pres. James H. Halsey numbered ten.

He expects other groups on campus to notify him of their intentions. Prizes will be awarded to the most successful group on a percentile basis, he added.

A student may either participate with an organization or work with his advisor if he intends to take part in the "UB Science Building Day" on May 21. The student is asked to contact his advisor between April 23-30.

On May 21 classes will be cancelled and the University family will meet in the Gym at 9 in the morning for breakfast. The University Dining Hall will be closed as will Alumni Hall until 12 noon.

Mayor Tedesco will officially proclaim "UB Day" at the breakfast and included in the ceremonies will be a well-known personality who has not been selected.

Dr. Francis Dolan, chairman of the Planning Committee, will greet all the participants at the breakfast.

Dr. Francis E. Dolan, chairman of the "UB Day" Planning Committee shows plans for the event to student leaders Maryann Cupo and Andy Mitchell. Prizes from local merchants will be awarded to teams and organizations that will participate in the May 21 program.

Gala Weekend to Feature Dorm Dedication, Wistaria Ball

Finances-Facilities-Facilities

Any university that constantly tries to expand and better itself deserves high praise and such acclaim should stem first of all from its students. This university must be commended for the enormous development program that it is carrying out.

This is a private institution and consequently has a fundamental problem of finances. Each new building requires a special entreaty for funds that is extremely difficult and which can result only through constant personal solicitation. Also, the alumni, while growing in leaps and bounds, still is quite a small group and not an affluent one in comparison to other institutions. Certainly, the expansion that has been achieved is the result of the financial efforts of many trustees, associates, friends, industries and organizations who have taken an active part in the efforts.

The result of the foresight and achievements of the University planners is evident when we view the comparatively short space of time in which the campus has been improved by the addition of a modern library, huge gymnasium, cafeteria and twin dormitories. And now these facilities will be improved even further with the eventual construction of a \$950,000 modern science building in keeping with the national trend toward increased scientific education.

Facilities such as these are evidence that the University leaders are not idle dreamers but rather active workers. Physical expansion such as we have seen is certainly an active and positive expression of understanding of educational needs. But let us insert a word of caution to those who champion the development of the University. While continued construction is good and necessary, let us also endeavor to improve the quality of the education.

We commend the University for its planned self-study program which will serve as a guide for future development. We hope that this study will also be an anchor to keep our physical expansion in line with plans for improved quality. For, although financing is a problem and facilities are necessary, let's not forget the third, and most important, factor in the development, that of the faculty, the backbone of any institution of higher learning. We sincerely hope that the bigger and better buildings of the future will be staffed by a comparatively "bigger and better" faculty to assure an ever-improving quality of education.

A New Look for Wistaria

The time of the Wistaria Weekend is fast approaching. This year's event will be filled with many new activities such as a music festival, a gymnastic performance, a Greek play, art exhibits, laboratory open houses and even a gymkhana conducted by the Sports Car Club. On Sunday, the dedication of the new dormitories will climax the weekend event.

One thing will be missing this year, and that is the Wistaria Pageant. In the past, this gala presentation was the climax of the affair and was often a production of gigantic proportions. It is somewhat sad to see the passing of the Pageant, but change is necessary in any endeavor to increase interest and build a solid student "spirit." Along with the death of the Pageant, we also have the birth of a new idea which presents groups of students in a varied program of activities in accordance with their principal interests and natural abilities.

The Wistaria Weekend is not a forced presentation. It is an outgrowth of student expression, an event that certainly adds much to the University. That it is changed and improved is good and in keeping with the change in the University as a whole which is growing and evolving steadily. No growing institution is completely static, and the fact that such events as the Wistaria Weekend are subject to change and improvement shows that UB is trying to build a more solid tradition.

BUILDING WILL DOUBLE

(continued from page 1)

have a separate outside entrance. Next to the lecture room will be a preparation room for science exhibits, and to the side of that will be a demonstration quiz room.

Also on the first floor will be basic chemistry laboratories, in addition to analytic, organic and physical chemistry departments.

There will be a research laboratory for advanced students and faculty members, basic physics

laboratories, lounge facilities for male students and faculty and office space for the dean and nine members of the science faculty.

The second floor will contain advanced physics laboratories, coordinated stock room area, a seminar room, two biology laboratories, two advanced biology departments, a bacteriology facility, a specially constructed animal room, storage space, research area, lounge facilities for female pupils and faculty members and offices for seven instructors.

Dedication of the new women's dormitories and dining hall, an open house, a varied program of student activities and exhibitions, will highlight the Wistaria Festival Weekend activities for May 9-11 at the University.

The annual Wistaria Pageant, as such, usually scheduled for the Sunday afternoon of Wistaria Weekend at Marina circle will not take place this year.

Opening weekend activities on Friday evening, May 9 will be the traditional Wistaria Ball for University students, guests and alumni at the Ritz Ballroom, featuring the music of Freddy Martin. Presentation of the Wistaria Queen and her court will take place at the affair.

On Saturday, May 10, University fraternities and sororities have arranged alumni and student chapter gatherings.

Wistaria Day activities on Sunday, May 11, will run from 12 noon to 6 p.m. Events will include two performances of "The Appello of Bellac" by the University's Office of Campus Productions at 1:15 and 3:45 p.m.

at the Drama Center under the direction of Albert A. Dickason.

Two gymnastic exhibitions by the UB gym team will take place at the University's Gym under the direction of Dr. David A. Field, director of the Arnold College Division of Physical Education, at 1:15 and 5 p.m.

The UB Sports Car Club will sponsor three gymkhanas to take place at the Technology Building parking lot at 1:15, 3:45 and 5:00 p.m.

Dedication exercises of Cooper and Chaffee Halls, the two new four-story dormitories for women and the dining hall completed last fall at a total cost of \$1,700,000 are scheduled from 2:30 to 3:30 p.m. at the dormitory quadrangle. Pres. James H. Halsey of the University will preside.

A festival of music will be offered by the University's music department from 3:45 to 4:45 p.m. at the Gym under the direction of Prof. Edward F. Byerly.

In addition to scheduled events several departments will be open to the public for inspection.

An art exhibition will take

place in the Lincoln Room of the University library under the supervision of Prof. James O. Jackson.

Exhibitions will also include: biology, at Fones Hall, Prof. William Everett; chemistry, Technology Building, Dr. Clarence D. L. Ropp; engineering, at the Technology Building, Dr. Willard P. Berggren; physics, Technology Building, Dean Earle M. Bigsbee; industrial design, Norsemen Hall, Prof. Robert Redmann; College of Nursing, Bishop Hall, Dean Martha P. Jayne; Fones School of Dental Hygiene, Dr. Robert H. W. Strang.

The Wistaria Queen and her court will attend the various campus events under special escort of fraternity presidents.

Members of the Wistaria Day Committee include: Pres. James H. Halsey, Dr. David A. Field, Dr. Claire Fulcher, Prof. Edward F. Byerly, Albert A. Dickason, Theodore W. Nowlan, Victor E. Muniec, Mrs. Marion Lunn, Raymond DeCava, Allan Freedman, Martin Halpert, James Ide, Jeanette Lam and Elmer Maher.

Weber to Receive 'Teacher of Year' Award

The forthcoming kickoff dinner for launching the University's \$950,000 Science Building campaign will include the announcement of the University's faculty honors.

Assistant Professor of art Charles D. Weber will be presented with an award in honor of his selection by the Board of Associates as the Teacher of the Year.

Each year the board gives its outstanding teacher award to the faculty member who has done the most for the students and the college.

According to George A. Buckhout, board president, who announced the selection of Professor Weber, the award this year will be presented at the April 30 kickoff dinner in the UB gym.

Although a teacher of art, Professor Weber will feel right at home when he enters the soon-to-be built science building.

His educational background includes a bachelor's degree in zoology from George Washington University, and a bachelor's degree in meteorology from New York University.

He served as an assistant zoologist on a Smithsonian expedition to the West Indies, a research biochemist with the United States Bureau of Fisheries and as a staff weather officer with an Air Force bomber group in England.

Born in Newport, Ky., Professor Weber was raised in Washington, D.C. He married the former Evelyn McLeish, of Twin Rocks, Pa., and they have a four-year-old son David.

Professor Weber studied painting and drawing at the Corcoran School of Art, Washington, and the Art Students League of New York. He earned a master's degree in the history of art from New York University.

Prof. Charles D. Weber

UB Board of Trustees Meets

Benton Named To UB Board

An ex-U.S. Senator was named to the Board of Trustees of the University at the annual spring meeting of the group, Alfred V. Bodine, chairman of the board, announced.

Long active as a government official and publisher and deeply interested in education, Senator Benton was instrumental in setting up a two-day conference at Yale University in February to discuss "America's Human Resources to Meet the Scientific Challenge."

A U. S. Senator from Connecticut in 1945-47, Benton is the publisher of Encyclopedia Britannica and president of the William Benton Foundation.

Benton now joins the large group of area civic and industrial leaders serving on the Board of Trustees.

Two Classes Plan Reunions

The University classes of 1933 and 1957 will conduct class reunions Saturday, May 17. It will be the 25th reunion for the former group and the first such affair for the latter.

The 1933 class members will meet at 4:30 p. m. in the home of Pres. and Mrs. James H. Halsey for a special reception and will then dine together in the University Club. Chairman for the affair is Dr. Paul J. Rhein-feld, assisted by Milton S. Green-halgh and Thomas B. Coughlin.

The 1957 class will gather at 6:30 p. m. in the Fairway Restau-

rant on East Main St. for a dinner-dance. Plans are being ad-vanced to invite members of the 1958 graduating group to partici-pate in the dance portion of the evening if the necessary arrange-ments can be made.

Nicholas T. Panuzio and Anne Foothorap are co-chairmen and a committee is being formed for personal contact work.

An October date is now being arranged for the Annual Alumni Reunion. This reunion is slated to take place in the Longshore Country Club, Westport. All alumni and their guests will be invited to attend.

Spring Concert Features Choir And Orchestra

Performances by the 50 piece University-Community Orchestra and the A Cappella Choir will highlight the annual spring concert of the University's music department to take place Sunday at the Gym at 4 p.m.

The entire program is open to the public at no charge. Prof. Edward F. Byerly, chairman of the music department announced.

Miss Rosemary Tancredi, of 1473 Park Ave., a sophomore majoring in music at the Uni-versity, is to be piano soloist with the orchestra. Miss Tancredi will play, "Hungarian Fantasy" by Liszt.

The first performance of an original choral composition by Harold Dart, assistant professor of music, will be sung by the A Cappella Choir. W. Earl Sauer-wein, assistant professor of music will direct the 24-voice group. Founded by Professor Sauer-wein several years ago the choir has made approximately 15 appearances in high schools throughout the state and before area choir groups this year.

Prof. Byerly, founder and or-ganizer of the University-Com-munity Orchestra will conduct the orchestra.

Made up of University stu-dents as well as members of the community, the University Com-munity Orchestra was organized several years ago.

Frosh Week Group Named

Named to executive posts on Freshman Week Committee are: Vinny Falcone, chairman; Shirley Sabo and Bernie Goldberg, co-vice chairmen and Ron Miller, treasurer.

The appointments were made by Vinny Caprio, Student Council president and approved by Council.

The Executive Committee is accepting the names of those students who are interested in working on Freshman Week. They may sign up in the Office of Student Activities.

Falcone explained that during the summer at weekly summer meetings the committee plans, organizes and coordinates all the Freshman Week activities. Various subcommittees will be formed and their chairmen chosen this summer.

While this work must be done by commuting and summer school students, Falcone pointed out that out of town students are also needed on the committee. They will serve as guides, hosts and hostesses, and keep the activities running smoothly.

Suggestions for improvements in Freshman Week have been made to the committee, which is willing to consider all ideas submitted. Some suggestions are: to extend Freshman Week one day, to include Freshman ID pictures in this time, to have a time when the extra-curricular organizations on campus can all set up booths to recruit members. These booths would inform the freshmen of the organizations' activities, purposes and memberships.

Governor Abraham Ribicoff gives his pledge for the University Science Building Fund to General Chairman Harold C. Main as Pres. James H. Halsey looks on. State and city officials have shown definite interest in the campaign with Bridgeport Mayor Samuel J. Tedesco proclaiming Wednesday, May 21 as "UB Day" in Bridgeport. Local merchants will display exhibits from the University throughout the city as UB-ites canvass the town in a personal appeal for funds to construct the new science building.

IN THE TWENTIES, up-to-date college gals wore raccoon coats, danced the Charleston and smoked Luckies. What's the rage on campus today? Raccoon coats. The Charleston. And Luckies! The conclusions are obvious.

1. Luckies were tops for taste in the Twenties and still are. 2. Smart smokers knew it and still do. So any gal who takes Luckies to a Roaring 20's party is a *Dapper Flapper*! And by George, the boy friend who sports 'em, too, is a *Couth Youth*! Prediction: In the 1980's, raccoon coats, the Charleston and light, good-tasting tobacco will still be in style!

LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!

UB Nine Faces Upsala Tomorrow

The Purple Knights travel to East Orange, N.J., tomorrow to take on Upsala College in what must be considered the most important game of the season for the Sacconemen.

Bernie "Skip" DePace who hasn't pitched since the Fairleigh Dickinson game should get the nod in the crucial test.

With slightly less than a third of the season gone the UB nine is making a determined bid to capture the first Collegiate Baseball League title.

Tomorrow's game will mark the third league encounter for the Purple Knights, having won their first two tilts at home last week against Fairleigh Dickinson University, 4-2, and St. Peter's College, 5-2.

If the locals can get by the Vikings next week's game against Seton Hall will have a great effect on the final standings. Seton Hall's most recent triumph was a romp, defeating Fairfield University, 20-3.

After splitting its first two games, the UB squad has won three of its last four starts for a 4-2 won and lost mark. The only loss was a 11-0 setback at the hands of a strong Spring-

Mayor Samuel J. Tedesco shows Pres. James H. Halsey and Coach Lou Saccone how to grip a curve ball prior to the Purple Knight's home opener against Fairleigh Dickinson.

field College nine. Sophomore Ralph King made his first start but control trouble was his downfall as UB was limited to three hits.

After pregame ceremonies in which Mayor Tedesco and President Halsey participated, the Purple Knights won their home opener and first league encounter, defeating Fairleigh Dickinson, 4-2. Bernie "Skip" DePace made his second start a successful one. He pitched creditable ball until one away in the ninth when he faltered. Bob Sullivan preserved the victory, retiring the last two batters with the tying runs on base.

Coach Lou Saccone called on Matt Kaishian to pitch against St. Peter's and the sophomore made an auspicious debut as he limited the visitors to six hits for a 5-2 victory. After the second frame when St. Peter's scored its two runs the stocky righthander threw zeros the rest of the way.

After the defeat to Spring-

field the Purple Knights made it three straight at home by defeating Hartford University, 11-3, in a loosely played contest.

Bob Sullivan made his initial start of the season, giving up four runs for his first victory. The visitors netted a run in the first but UB bounced back with five in its half of the frame and scored three more in the second to win easily. The UB mentor substituted freely after the second stanza. In all 19 players got into the lineup.

MISS INTERNATIONAL

A University senior has been named a candidate for the title of "Miss International" by the International Institute. Alicia Dabrowski, a dental hygiene education major, will vie for the crown. The winner to be chosen May 3 and presented at Glorieta Manor.

Joe Comunale Takes Crown

While the rest of the University was worrying about baseball and what have you during the past week, Joe Comunale journeyed to East Lansing, Mich., the home of the Spartans of Michigan State, and walked off with national weightlifting honors.

Not only did Comunale win the N.C.A.A. middleweight collegiate championship but as the University's only representative in the two-day meet his performance was good enough to put UB in fourth place along the leading weightlifting schools in the country. Host Michigan State captured the crown.

An Arnold College student, Comunale's performance placed the University in a tie for second place after the first day's competition.

Comunale's total of 780 points was 35 points better than his nearest competitor and he set a new press mark en route to the N.C.A.A. 165-pound title.

The 25-year-old who had trouble in obtaining sufficient funds for the events finally corralled enough money from Arnold Division, Student Council, Spirit Committee, fraternities, sororities and students, enabling him to make the trek.

Arnold Reunion Planned

Dr. Dwight Monnier, director of Training and Research for the Massachusetts Department of Public Health, will discuss "Some Implications of American Aid to Countries of Southeast Asia with Emphasis on Pakistan and India" before the Arnold College Alumni Reunion Banquet on May 3 at 6:30 p. m. in the Gym. The banquet is part of a general

reunion program scheduled for the University campus during the day.

Dr. Monnier, a 1942 graduate of Arnold College, was formerly U. S. Health officer in Pakistan before assuming his present duties and is an authority on the culture, politics and religion of that country.

The evening banquet ceremonies will highlight presentation of awards to two outstanding seniors, Judith Carr and Gary Engler who exemplify the spirit of the late Dr. Arnold. Rabbi Albert Martin of the Park Avenue Temple will deliver the Invocation and Benediction and William Bercowitz, Arnold Alumni president, will serve as master of ceremonies.

A slate of new officers for the Arnold Alumni Association will be presented at the annual luncheon-business meeting scheduled to take place at noon in the University Dining Hall.

The officer candidates are: Claire M. Albom, president; Alice Shea, first vice-president; Phillip Lubarsky, second vice-president; Marcelle Gaccioppoli, secretary-treasurer and Yota Bouzoucos, corresponding secretary.

Registration will take place at 10 a. m. in the Gym. A campus tour will precede the luncheon-business meeting and a program of gymnastic exhibitions will compose the afternoon activities. Dr. David A. Field, director of the Arnold College Division, is chairman for the affair.

Arnold Fund Receives Gifts

The Arnold Memorial Room fund has received 543 gifts totaling \$3,536, according to figures released by the Alumni Office, April, 14.

This represents more than half the \$7,000 goal necessary to pay for the furnishings of the Arnold Memorial Room in the Gym. This all-purpose room was dedicated officially by the University last year.

The Arnold Memorial Room Committee started general appeal efforts early in 1956 among Arnold alumni to pay for the cost of these facilities. Chairman for this year's campaign is William F. Coyle, a 1934 Arnold graduate.

Dr. E. H. Arnold, a pioneer in American college level instruction of physical education, was president of Arnold College for nearly 30 years until his death in 1929.

What does this fruit have to do with this cigarette filter?

THE VICEROY FILTER IS MADE FROM A PURE, NATURAL MATERIAL FOUND IN ALL FRUIT

—and it gives you Maximum Filtration
for the Smoothest Smoke!

• From the same soft, pure material found in the rich pulp of nature's healthful fruits, modern filter scientists have created the greatest cigarette filter ever designed . . . the Viceroy filter. For the Viceroy filter gives you the *maximum filtration* for the smoothest smoke of *any* cigarette. More taste, too . . . the pure, natural taste of rich, mellow tobaccos. Yes, Viceroy gives you *more* of what you change to a filter for!

New crush-proof
flip-open box or
famous familiar pack.

Dear Alumni:

During the past year, we have both witnessed the rapid growth of the University in physical plant and academic achievements. Reason enough, we think, for welcoming the opportunity to subscribe to the Scribe, the campus weekly.

In the pages of the Scribe you will find University history in the making. The Scribe gives something for everyone: news about community friends, faculty and staff, scholastic and social progress, expansion plans, weekly sports summaries, personality features, etc.

A professionally trained staff offers you a complete record of campus affairs, sprinkled with human interest and color.

Thirty news-packed issues are yours for only \$3.00. Take advantage of this out-standing offer now. Fill out and mail the enclosed form with your check or money order.

Sincerely yours,

Brian C. O'Gorman
